

GROOMER TRAINING

Groomer training and refresher information will again be required for any club member who is interested in volunteering. Care and use of upgraded equipment is in flux all the time, so even if you groomed last year, you will need to get the updated information. There will be a session held on Saturday, November 11, 2017 at 1pm, located at the club's groomer barn located at 23 Uncas Road in Inlet. Please contact Paul Chambers (after October 28th), phone 315-357-3046 to let him know if you will attend or to arrange a different training time if you can't be there on November 11th.
